

# Red Hat® Academy turns academic institutions into centers for enterprise-ready talent by providing them with Red Hat training and certification curriculum.

Students completing the Red Hat Academy program at their affiliated institutions learn in-demand skills, have access to hands-on lab environments, and develop practical knowledge.

Hear what our students' have to say about our program and their experiences.

## Prepare students for career readiness and success

We provide academic institutions with materials and a learning platform to help both instructors and students succeed.

"The hand-on labs allow me to retain information more effectively and develop skills that will directly apply in a real work environment. In my journey of earning the [Red Hat Certified System Administrator] RHCSA, I have gained greater confidence in my Linux skills, which has also made me become more curious and informed about the technologies that are currently used in the industry."

**Jonathan Saenz**, Red Hat Academy Student Ambassador, Texas A&M

"I am thankful for the Red Hat Academy program as it helped me gauge my knowledge and expand my skill set. By taking Red Hat courses, I was able to attain an internship position at Red Hat, and since then, I never looked back."

**Nikunj Doshi**, Northeastern University Master's in Information Systems, former Red Hat OpenShift® intern

"The Red Hat Academy program has allowed me to gain beneficial knowledge that has aided me in other areas of study within the computer science realm. The program provided me hands-on experience with Linux, automation, scripting, and server administration. This knowledge helped me tremendously, and I continue to use what I learned daily."

**Christopher Brannon**, Broward College

"I feel confident looking for a job involving Linux servers when I graduate from East Carolina University because of the strong foundation the Red Hat Academy courses have provided me."

**Ian Gunn**, East Carolina University

## Benefit from Red Hat Academy curriculum and certifications

Red Hat Academy's robust course material prepares students for real-world scenarios, while our certification exams validate their expertise in Red Hat products.

"I would have never guessed that the Red Hat Academy Systems Administration course would be the one to spark my passion to learn more about cybersecurity. ... The Red Hat Academy content was by far the best textbook I have ever used for a class. The text material was concise, to the point, and easy to understand."

**Javier A. Colón Morales**, Valencia College

"The training I received through the program will place me a cut above fellow job candidates when I graduate. Red Hat is a cornerstone for cyber security learning."

**Geraldine Riley**, Valencia College

"While I have taken many networking courses, the Red Hat Academy courses are above and beyond. ... I can not stress enough how great the labs are and the overall functionality of the platform as it was intuitive and very easy to use."

**John David Watts Jr.**, Auburn University

"The Red Hat Academy program has had a broader social impact on both my family and community as others see the changes the program brought into my life, both financially and academically. Red Hat Academy is the way to go, and it is the future of technology."

**James Ndikintum**, Stanly Community College

## Build leadership skills with the student ambassador program

The Red Hat Academy student ambassador program gives motivated students the opportunity to work directly with the Red Hat team to develop their leadership and entrepreneurial skills.

"As a Red Hat student ambassador, I had the opportunity to be a leader amongst my academic peers. I led through collaboration by incorporating the ideas and feedback of my classmates into our campus events, and I led through example by encouraging leadership skills in others."

**Tiffany Alford**, Red Hat Academy Student Ambassador, Fayetteville Technical Community College

"The Red Hat Academy program has had a very positive impact on my academic experience. Not only has it directly taught me more about Linux, which was great, but it also contributed to fostering a community within Valencia that motivated myself and other students to push harder for our academic goals."

**Nick Astor**, Red Hat Academy Student Ambassador, Valencia College

"Seven months before graduation, I was offered a full-time position at Red Hat as an Associate Consultant. I did not think it was possible a few months before when I first became the Red Hat Academy student ambassador for my campus. The Red Hat Academy program equipped me with specific experiences and resources that helped immensely during the interview process."

**Sevak Papanyan**, Red Hat Academy Student Ambassador, California State University San Bernardino
